# NISHANT VADGAMA

Engineering Team Lead | Full-Stack Architect | React.js · React Native · Node.js | FinTech & Digital Banking

Ahmedabad, Gujarat, India | +91 8487886566 | nishantvadgama007@gmail.com | LinkedIn | Portfolio

## PROFESSIONAL SUMMARY

Engineering Team Lead with 12+ years of experience architecting and delivering enterprise-scale web and mobile applications across the Digital Banking and FinTech sectors. Specializes in React.js, React Native, and Node.js, with deep expertise in secure BFF API design, configurable platform architecture, and JSON-driven dynamic UI systems. Proven track record leading engineering teams through the full delivery lifecycle — architecture, sprint planning, code review, and production support — while partnering directly with product owners and enterprise banking clients. Passionate about mentoring engineers and building scalable, secure, high-quality software that moves the business forward.

## CORE COMPETENCIES

Team Leadership & Mentoring • Solution & Software Architecture • React.js / React Native • Node.js • REST & BFF API Design • Secure API Encryption (ECDH/ECDSA) • MongoDB • Digital Banking & FinTech Platforms • Sprint Planning & Technical Estimation • Client & Stakeholder Management • Code Review & Production Support

## PROFESSIONAL EXPERIENCE

**Engineering Team Lead** | Panamax Inc. (Bankaiinfotech), Ahmedabad, India *Apr 2022 – Present*

- Lead a cross-functional engineering team of 6 developers delivering enterprise-scale digital banking and FinTech applications, owning architecture decisions, sprint planning, technical estimation, and production support.
- Architected a configurable, JSON-driven CMS platform that renders components dynamically across web and hybrid mobile applications, reducing development effort for new banking products by up to 80% through standardized, reusable component patterns.
- Designed and implemented secure Backend-for-Frontend (BFF) APIs with ECDH/ECDSA-based encryption to protect sensitive financial data in transit.
- Spent 2 months on-site at Stanbic Bank Uganda (SBU), working directly with the client's business and technical teams to gather requirements, resolve production issues, and ensure successful delivery of the banking platform.
- Conduct code reviews and mentor junior developers, raising code quality standards and accelerating onboarding across the team.
- Own MongoDB data management and schema design using Studio 3T for multiple production banking applications.

**Senior Consultant** | Panamax Inc. (Bankaiinfotech), Ahmedabad, India *Apr 2020 – Apr 2022*

- Contributed to early architecture of the configurable CMS platform and BFF API layer now used across multiple client deployments as a senior individual contributor, laying the technical foundation later expanded into the Team Lead role.

**Senior Consultant** | Joshi Biztech Solutions Limited, Bhavnagar, India *Jan 2019 – Apr 2020*

- Built cryptocurrency exchange platforms (paroexchange.com, sonicex.com) end-to-end, including order book, live trading chart, and wallet management components.
- Implemented real-time data binding via WebSocket integration for live trading data across multiple currency pairs.
- Integrated Facebook SDK for social authentication, streamlining user onboarding.

**PHP Developer** | Joshi Biztech Solutions Limited, Bhavnagar, India *Jan 2018 – Jan 2019*

- Developed and maintained core PHP application modules, progressing to Senior Consultant within the first year based on delivery performance.

**Front-End / Software Engineer** | Milople Technologies Pvt. Ltd., Bhavnagar, India *Jul 2014 – Jan 2018*

- Developed 10+ published plugins/modules for Prestashop and Magento e-commerce platforms — including Partial Payment and Call For Price — as a verified community contributor.
- Consolidated multiple internal ticketing systems into a single support workflow, improving cross-team communication and issue resolution turnaround.
- Designed and built an online interview/examination system adopted company-wide for recruitment screening.

**Trainee** | Indies Services, Bhavnagar, India *Dec 2013 – Jun 2014*

- Completed foundational training in web development, transitioning directly into a full-time Software Engineer role.

## TECHNICAL SKILLS

**Languages & Frameworks:** JavaScript (ES6+), React.js, React Native, Node.js, Redux, jQuery, PHP, Laravel, CodeIgniter
**UI/Styling:** Material-UI, HTML5, CSS3, Materialize
**Data & Databases:** MongoDB (Studio 3T), MySQL, phpMyAdmin
**APIs & Integration:** REST APIs, BFF Architecture, ECDH/ECDSA Encryption, WebSockets, Facebook SDK
**Platforms:** Prestashop, Magento, Digital Banking Platforms, FinTech Systems
**Practices:** Agile/Scrum, Sprint Planning, Code Review, Technical Estimation, Solution Architecture

## EDUCATION

**Master of Computer Applications (MCA)** — GTU / GLS Institute of Computer Technology, 2011 – 2013
**Bachelor of Computer Applications (BCA)** — Swami Vivekanand Institute of Science and Technology, 2008 – 2011

## CERTIFICATIONS

- Complete React Developer in 2022 (Redux, Hooks, GraphQL) — The Ultimate Fullstack Web Development Bootcamp
- React 16.x (Advanced)
- JavaScript (Intermediate & Basic)
- React (Basic)
